Safety Huddle
“I have my own strategies at home to stop me from falling, but the hospital is so busy. I’m so glad that everyone here is concerned about my safety.”

Surgical B Patient
Do you find the Safety Huddle of value to maintain patient safety?

Do you follow the strategies highlighted in the Safety Huddle form?

Do you feel confident to initiate a Safety Huddle?

Do you comply with the FRAMP?

Do you find the FRAMP of value to assist with strategies to reduce falls?
Falls Strategies

- FRA on admission
- FRAMP completed
- Huddle in 24 hours
- Hourly rounding completed

March - April 2017
October - December 2017
March - April 2018
Falls

- Blue bars represent 2016
- Red bars represent 2017
- Green bars represent 2018

Graph shows the number of falls per month from January 2016 to December 2018.
Where To Now

• Safety huddles occurring when CNE not here

• FRAMP completion compliance – education on making the FRAMP nurse friendly

• AIN education on communication and management of patients at risk of falls
