# Safety huddles

## **Greenwich SMHSOP Inpatient**

### Jack Powell Clinical Nurse Educator.

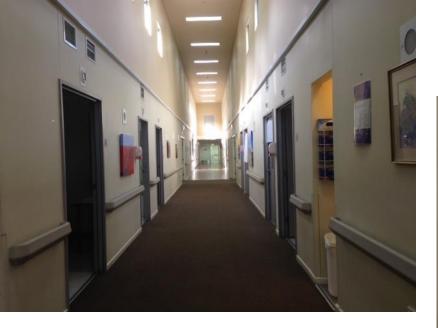

An independent Christian charity

# **Riverglen Unit**

- Specialist Older Person Mental Health Unit.
- People over 65+ with acute mental illness/distress and requiring geriatric care.
- 20 bed Unit.

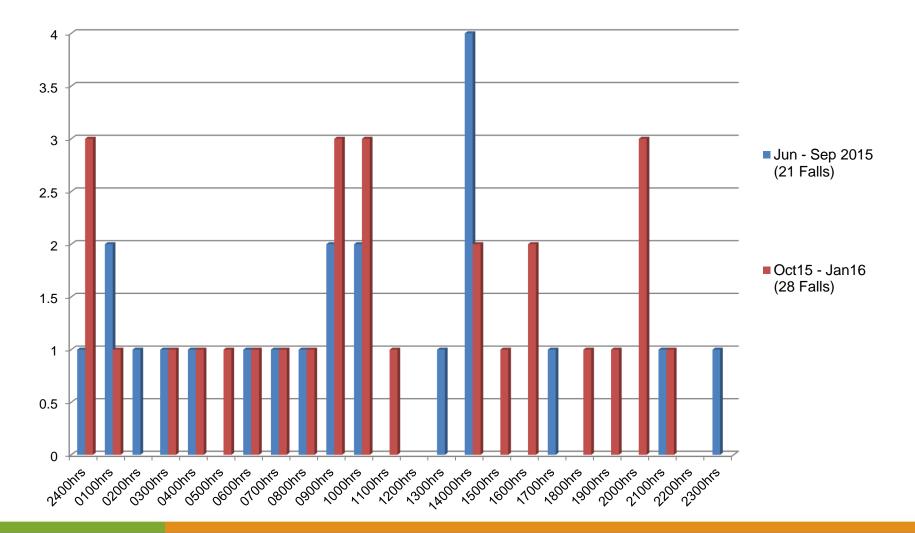

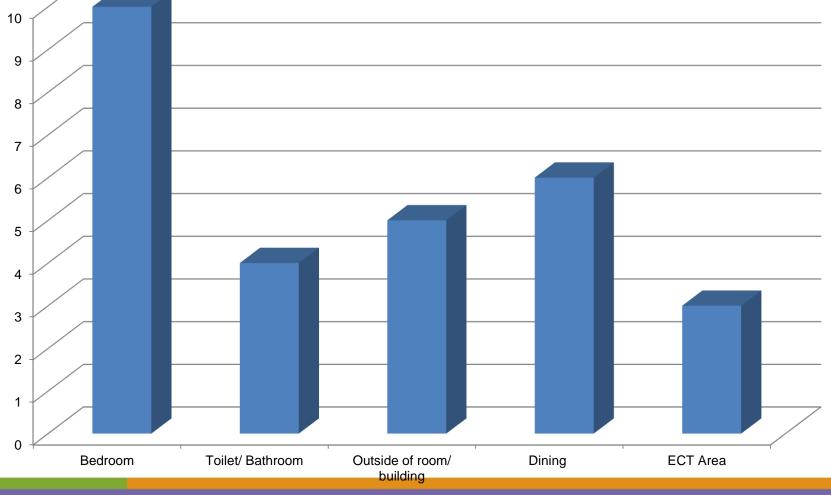

### **Time of Falls**

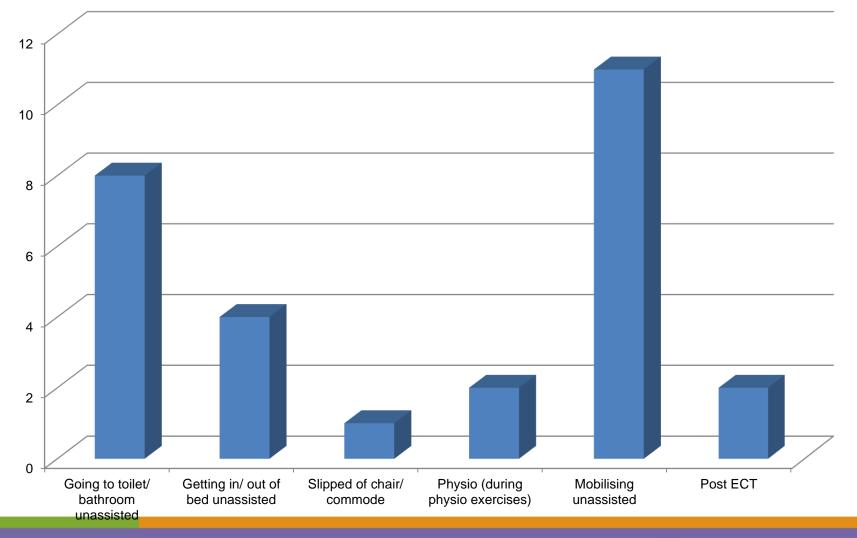

### Falls Incidents by Specific Locations

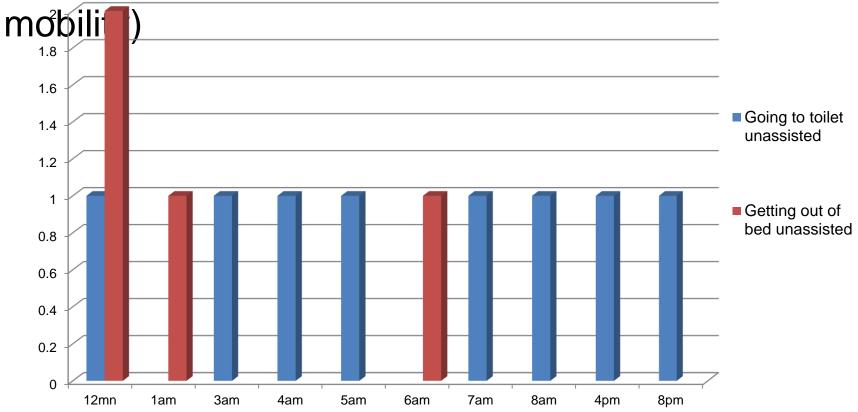

An independent Christian charity

## By Activity at Time of Fall

# Time Going to Toilet and Getting Up from Bed Unassisted (9 out of 12 are independent with

# Safety Huddle

- Multidisciplinary review on admission and after a Fall or Near Miss
- Involving Team CNE, Nursing Incharge, or Falls Champion (Nursing staff run the huddle), Physiotherapist, Medical Officer and the patient and/or carer
- Risks and Incidents / Near Misses are identified
- Documentation of Falls risk/ Incident / Near Miss and the Recommendations / Plan

# Topics covered:

- History of Falls
- Mental Status/cognition of the patient
- Medication impacting
- Patients Vision
- Toileting
- Transfer /mobility.

• Mental Status:

Is the consumer orientated enough to participate? Is there a delirium present? Do we need a U/A?

• History of Falls:

Information gathered by nursing staff and discussed *with* consumer if they are well enough to participate.

#### **Medications**

- Nursing staff to look at medication chart to see if any medication causes postural hypotension.
- Do you ever experience dizziness when you stand up?
- Drowsiness?
- ECT

## Any vision impairment?

# Is there enough lighting to get to the bathroom?

### Toileting:

- Incontinence?
- Frequency of toileting, Urgency?
- Access to call bell

### Transfer/Mobility

- Day time and night time mobility.
- AIDS
- With assistance
- Footwear

# Plan

- Document in EmR:
  - -any education given
  - -Any strategies to be used e.g. nonslip sock, leave bathroom light on
  - -Concerns from physio or family.

## Time : results

- Collected data for 59 Huddles
- Time recorded for 48 huddles = 243 mins
- 5.06 mins per huddle.

Reduced falls on the ward by 30%

### Implementation

- Education inservices for all nursing staff who are in-charge/team leader.
- Running falls huddles and including nursing staff in the huddle.
- Flexibility to change process depending on changing staff. (Currently slotted into a regular meeting time slot. 0800hrs Monday, Wednesday and Friday)

# Constraints of this project

• Part-time staff and rotating staff.

Ownership of the project

# Our mission Our passion is improving quality of life for people in need
